ELEVATE™ II

Elevate II joins Anthro's line-up of adjustable-height tables that move from sitting height to standing height at the push of a button. Available in a range of sizes and finishes, Elevate II keeps you moving throughout the day so you're energized and productive.

Add in thoughtful details like tilt-and-go back wheels for the mobility you need (lift up the front of the worksurface and roll the table to access the back of your equipment or rearrange your space) and comprehensive cable management (organize your cables and protect your equipment when the table's in motion) and you have a great-looking table that fits the way you work.

Anthro's signature Lifetime Warranty against manufacturing defects and "Made in the USA" quality make Elevate II the top stand-up desk for office, creatives, and labs.

PRODUCT SPECIFICATIONS

Shelves: Basic tops are 1" thick 45-lb industrial-grade particle board with high-pressure, scratch-resistant laminate. Vinyl edge banding matches the laminate. Plus tops are 1" thick medium-density fiberboard wrapped in highly durable thermoplastic laminate that resists cracking and chipping and stands up to a wide range of chemicals.

Metal: Metal components are 12 gauge steel with baked-on powder coat finish.

Colors: See Color Choices at the top of the following pages for available colors.

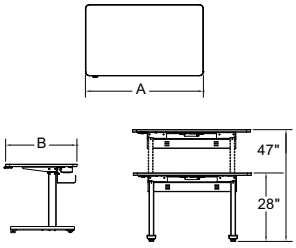
Warranty: Lifetime Warranty against manufacturing defects on the table; five-year warranty on legs and electrical system. Cords and plugs are not warranted.

Nicole's Elevate II table adjusts 28"-47" high so she can position it comfortably to work sitting and standing.

ELEVATE II ELECTRIC LIFT TABLES

Elevate II Plus, 60"w 29"d

Elevate II Basic, 60"w 23.25"d



- Work sitting or standing so you're comfortable and productive all day long with Elevate II electric lift tables. Tables adjust 28"-47" high, and legs move 1.7" per second to quickly position the table right where you want it.
- Strong electric legs lift 250 lbs. easily and quietly to move all your equipment up and down with the table. That way, cords don't have to stretch to reach the full height of the table when you work standing.
- Large cable tray runs the width of the table at the back so cords waterfall off your computer, displays, and other equipment, directly into the tray where they're organized and protected. Add a Power Bar or Surge Protector (sold separately) as a single power source for the table and equipment.
- "Tilt and go" wheels at the back of each foot make it easy to move the table when you need to rearrange your space or access the back of your equipment. Just lift the front of the worksurface and roll the table into place.
- Available in two widths (48" and 60") and two depths (23.25" and 29") to fit your equipment and your space.
- Add options to store your equipment. CPU SideRacks attach to the table top so your computer moves up and down with the table. Articulating monitor arms hold your displays up off the worksurface and position them so they're easy to reach and easy to see.
- Choose between two types of worksurface finishes to match your environment. Basic tables have rigid high-pressure laminate worksurfaces with vinyl edge banding to cushion edges from bumps in high-traffic areas. Plus tables have contoured laminate worksurfaces with smooth curved edges that are comfortable against your arms when typing.
- Basic laminates available in Black (BK) and Polar White (PW). Plus laminates available in Maple (MP) and Wenge (WE) wood finishes. Metal surfaces are Silver Satin (SS).
- Comes with single worksurface, cable tray, control box and keypad for electric height adjustment, two electric lift legs, two feet with tilt-and-go back wheels.

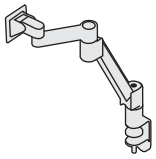
PLEASANT TO ASSEMBLE

Most of our customers attest to our great assembly instructions and the tools we send to put your units together. Our aim is to make assembly as easy as possible.

FLAT PANEL MONITOR SOLUTIONS

Lots of choices for your flat panel monitor! Pick the features you need. **Note: all mounting options conform to VESA 75mm and 100mm mounting standards.** If you need a different standard or would like to discuss additional monitor solutions that we have available, give us a call.

Flat Panel Monitor Arm



- These steel arms have a vertical travel range of 16" and rotate 360°. Travel range depends on the size of your monitor.
- Mount with either a C-clamp to the edge of your Table or drill through a shelf for added security. Clamp opens a maximum of 2" and requires 3.5" of vertical clearance below the shelf.
- The Single-Standard Arm and Single-Super Arm extend up to 22" from their mounting point.
- The Single Extra Heavy-duty Arm extends up to 24" from its mounting point. It comes with a 100mm and a 100x200mm VESA plate.
- The Dual-Standard Arm supports two monitors weighing 4–19 lbs. each. It extends up to 27" from its mounting point.
- Ten-year warranty against manufacturing defects.
- The Standard-Single and Super-Single Arms are available in Black (BK) and Silver Metallic (SM). The Standard-Dual and Extra Heavy-duty Single Arms are available in Black (BK) only.
